

Infernot: Wildfire Defense Systems

Affordable solutions for protecting homes from wildfires

INFERNOT ENGINEERING

The Wildfire Threat

Existing Solutions:

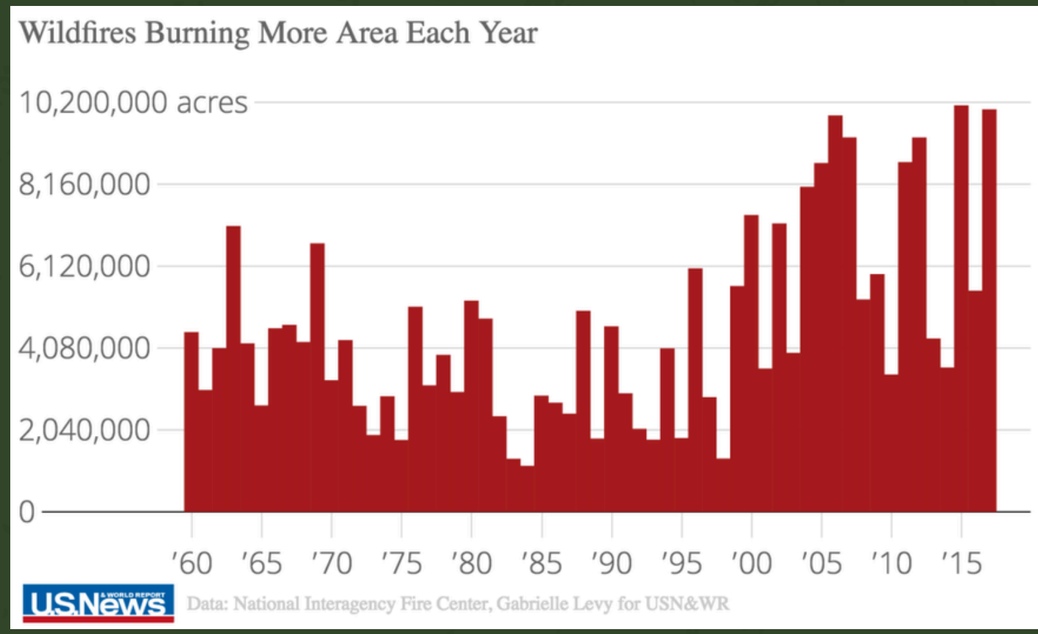

Too Expensive
Dont provide entire home safety

Economic Impact

Losses exceed over half a trillion dollars each year, affecting local economies and insurance systems.

Ember Risks

80% of fire damage comes from embers, igniting structures and spreading fires rapidly.

INFERNOT ENGINEERING

The Solutions

Detection:

- Multi-sensor, AI-powered detection
- Real-time connected intelligence

Response:

- Robotic sprayer deploys fire-suppressant around house perimeter
- Easy install and maintenance

INFERNOT ENGINEERING

Market Opportunity Overview

High-risk homes in U.S.

Potential annual revenue

Total market value
